WORK EXPERIENCE

Independence Pet Group   **Dec. 2021 – Present**
Front end Developer   *Remote*
- IPG is the third largest pet insurance company in the world, owning dozens of household name brands.
  - In my role as a Front End Developer, I led collaborative efforts with designers, resulting in a significant 20% increase in website traffic for ASPCA Pet Health Insurance across 20 newly developed pages.
  - Secured first-page Google rankings via SEO optimization, resulting in a 10% traffic increase and a 5% higher conversion rate.
  - Upgraded Umbraco CMS to the latest version, resulting in a 15% enhancement in global site loading speed.
  - Transformed team efficiency with a 75% productivity boost by creating a customized email design system in Salesforce Marketing Cloud.

Independent Full Stack Developer   **Feb. 2022 – Present**
Lineage Bank | Dec, 2023 – Present
- Developed data automation scripts in Python for archiving customer information.

Amyna Systems | Feb, 2023 – Aug, 2023
- Designed and programmed internal dashboards in React for monitoring private services within Amyna Systems.

Tennessee Templars Basketball | Feb, 2022 – Present
- Increased the online presence of a Major League basketball team via a custom web app, and integrated live stream hosting services in Next.js.

ForYouHR   **Aug. 2018 – Sep. 2020**
Virtual Administrator   *Remote*
- Offered dedicated technical support to clients at HCA, troubleshooting issues, and resolving challenges promptly and effectively.

EDUCATION

Tennessee Technological University   **May, 2020**
BS, Computer Science, High Performance Computing   *Cookeville, TN*
- 3.6 GPA

Vanderbilt University, Owen Graduate School of Engineering   **Aug, 2021**
Full Stack Development Technical Diploma   *Nashville, TN*
- Top 1% of the class
- Gave a speech during graduation, and I continue to tutor incoming students
